

OUR WOBBLY EARTH CARDS

Rise in sea temperatures is limiting the oceans' carbon sink capacity. Remove two **blue ocean blocks**.

People refuse to carpool. Add one **black traffic block**.

Idling increases carbon emissions. Add one **black traffic block**.

Summers will be getting hotter. People use air-conditioning. Add one **purple energy block**.

A company logs hectares of forest to make space for a new hotel. Remove two **green plant blocks**.

A new factory is built. Add one **red factory block**.

Car manufacturers invent cars with more fuel-consuming engines. Add one **black traffic block**.

More and more people fly long-haul for their holidays. Add one **black traffic block**.

The pH of oceans changes and their ability to absorb carbon decreases. Remove **one blue ocean block**.

OUR WOBBLY EARTH CARDS

Meat consumption increases, which causes methane emissions. Remove one **pink animal block**.

The tree you planted photosynthesises and absorbs carbon dioxide from the atmosphere. Don't remove or add any blocks.

You participate in restoring the moorlands. Together with the others, you can add **one green block** to the tower to give it more support.

You make a donation to WWF for tiger conservation. Together with the others, you can add **one pink animal block** to the tower to give it more support.

You take part in a campaign to plant trees. Together with the others, you can add **one yellow block** to the tower to give it more support.

You make a lifestyle change: you save energy, make conscious consumer choices, and use public transport. If you want, you can remove **one black, purple or orange block** from the tower.

You make a lifestyle change: you turn off the lights, buy from recycling centres, and travel by train. If you want, you can remove one **black, purple or orange block** from the top of the tower.

You choose to buy flour produced in your home country instead of imported flour. If you want, you can remove **one orange block** from the top of the tower.

You use green energy instead of coal power, so the carbon stays in its rock form. Together with the others, you can add **one brown block** to the tower to give it more support.

OUR WOBBLY EARTH CARDS

New agricultural technologies enable the soil to absorb more carbon. Don't remove or add any blocks.

People leave their electronic devices on overnight. Add one purple energy block.

Mining releases carbon from its rock form. Remove one brown block.

Rock form restores carbon. Don't remove or add any blocks.

There is too much carbon dioxide in the atmosphere. Remove one yellow atmosphere block.

You buy an imported laptop, which was shipped from the other side of the world. Add one orange transportation block.

You buy a fruit that has been transported to your country from South America. Add one orange transportation block.

The ocean is the most important carbon sink. Don't remove or add any blocks.

As organic material decomposes, it releases carbon into the atmosphere. Remove one pink animal block.
